

Project Proposal (15 pgs)

The suggested format for the proposal is as follows.

1. ~~Title: {Title of the project}~~
2. ~~Introduction~~
3. ~~Current situation leading to problem identification~~
4. ~~Proposed technique to solve the current problem~~
5. ~~Feasibility~~
6. **Project Description:** {Brief description of the project}
7. ~~Deliverables: {Describe the output of this project. These must include the results, any artefact, or a detailed investigation/analysis of a topic}~~
8. ~~Resources required: {Any special software/tools required etc.}~~
9. ~~Expected output and outcome~~
10. **Time plan for implementation**
11. **limitations**
12. **References:** {References supporting your claims/statements in sections 2 & 3}

One more thing...

The project must allow students to demonstrate:

- (i) their ability to apply practical and analytical skills present in their Degree programme as a whole;
- (ii) innovation and/or creativity;
- (iii) Combination of information, ideas and practices to provide a quality solution together with an evaluation of that solution;
- (iv) that their project meets a real need in a wider context;
- (v) the ability to self-manage a significant piece of work;
- (vi) critical self-evaluation of the process
